About Cheetah Net Supply Chain Service Inc.

Cheetah Net is a supplier of parallel-import vehicles sourced in the U.S. to be sold in the PRC market. In the PRC, parallel-import vehicles refer to those purchased by dealers directly from overseas markets and imported for sale through channels other than brand manufacturers' official distribution systems. To the Company's knowledge, there are currently no U.S. federal or state laws, regulations, or rules on trade or export that prohibit the export of vehicles that will be parallel imported into foreign countries. The Company purchases automobiles, primarily luxury brands such as Mercedes, BMW, Porsche, Lexus, and Bentley, from the U.S. market and resells them to the Company's customers, including both U.S. and PRC parallel-import car dealers. The Company derives profits primarily from the price difference between the Company's buying and selling prices for parallel-import vehicles.
